To Whom It May Concern:

Please be advised that any test kits sent by your hospital, clinic or company to DiagnosTechs, Inc. are considered as exempt human specimens and are unlikely to contain infectious substances or cause disease in humans.

When the sample tubes are packaged according to the instructions, each kit contains HUMAN SALIVA AND/OR PRESERVED STOOL SPECIMENS AND/OR URINE in triple-sealed containers. The packaging system meets the guidelines of the United States Postal Service and International Air Transport Association (IATA).

Samples received from physicians or patients from outside the United States are for medical testing and diagnostic purposes only. Samples must be shipped according to our instructions to arrive at the laboratory within the stability period of the test(s).

DiagnosTechs, Inc is a CLIA licensed laboratory and maintains a 35-year record of superior performance during accreditation inspections. Presently the laboratory is accredited by the Joint Commission (the largest private U.S. accreditation agency) and licensed by the Washington State Department of Health.

If you have further questions, please don't hesitate to call.

Sincerely,

Ning Cegielska

Director, Laboratory Operations
